

From Our Pastor...

Can you feel the excitement in the air as you walk in the midst of the First Family? The excitement comes from the Spirit's presence. I sense in my heart the Holy Spirit flowing in our midst weekly.

How can you tell the Spirit is moving in our midst? There are several ways to tell of His active presence.

First, I notice His active presence by the love being shown one to another. Does that mean we always agree? No, but it does mean we love regardless.

I notice His active presence by the desire many have to know the Lord Jesus deeper.

I notice His active presence by seeing hearts open weekly to the lost of this world.

I notice His active presence by seeing a desire to obey the Lord at any cost.

I notice His active presence by just being still and letting Him speak in conviction to our hearts.

I promise you the Lord is very active in our presence.

Allow let me share a word of insight with you. As God moves, so does the enemy. The enemy will work to bring forth confusion and division in the Body of Christ. You and I must be very careful to stay at the feet of our Lord and allow Him to have His way with our lives. So FBC family, let's enjoy the Lord and share Him with a lost world that needs Him, for time is passing by very quickly.

This past Sunday, I only preached one point of the message the Lord shared with me. I will continue the message the Sunday after Labor Day. But I do want to give you the three points of what I need you to remember in prayer.

I need to remember:

- **The love of God wants the best for us.**
- **The wisdom of God knows what is best for us.**
- **The power of God can accomplish it.**

Bro. Johnny
